## IN THE SPECIFICATION

Please amend the paragraph beginning at page 1, line 5, of the application as follows:

The present invention is related to the inventions disclosed in United States Patent Application Serial Number 09/712,681 [Docket No. PHA 701137] filed November 14, 2000 [Filing Date], entitled "METHOD AND APPARATUS FOR THE SUMMARIZATION AND INDEXING OF VIDEO PROGRAMS USING TRANSCRIPT INFORMATION" and in United States Patent Application Serial Number 09/351,086 filed July 9, 1999, entitled "METHOD AND APPARATUS FOR LINKING A VIDEO SEGMENT TO ANOTHER SEGMENT OR INFORMATION SOURCE" and in United States Patent Application Serial Number 09/688,644 [Docket No. PHA 701071] filed October 16, 2000 [Filing Date], entitled "SYSTEM AND METHOD FOR ORDERING ONLINE UTILIZING A DIGITAL TELEVISION RECEIVER" and in United States Patent Application Serial Number 09/747,108 [Docket No. PHA 701182EXT] filed December 21, 2000 [Filing Date], entitled "SYSTEM AND METHOD FOR ACCESSING A MULTIMEDIA SUMMARY OF A VIDEO PROGRAM." These patent applications are commonly assigned to the assignee of the present invention. The disclosures of these related patent application are hereby incorporated herein by reference for all purposes as if fully set forth herein.

Please amend the paragraph beginning at page 17, line 2, of the application as follows:

As the video program is being recorded on hard disk drive 230 (or, alternatively, after the video program has been recorded on hard disk drive 230), controller 250 obtains a text summary of the recorded video program using text summary generator 270. Text summary generator 270 uses the method and apparatus for summarizing a video program that is set forth and described in United States Patent Application Serial Number 09/712,681 [Docket No. PHA 701137] filed November 14, 2000 [Filing Date], entitled "METHOD AND APPARATUS FOR THE SUMMARIZATION AND INDEXING OF VIDEO PROGRAMS USING TRANSCRIPT INFORMATION." Text summary generator 270 receives the video program as a video/audio/data signal. From the video/audio/data signal text summary generator 270 generates a program summary, a table of contents, and a program index of the video program. Text summary generator 270 uses a time stamp associated with each line of text to identify a selected key frame of video corresponding to the text.

Please amend the paragraph beginning at page 34, line 4, of the application as follows:

The multimedia summary of the present invention can also be used in conjunction with methods and apparatus for ordering products and services that are discussed during a video program. For example, a viewer may desire to purchase a book that has been discussed during a talk show video program. Products and services may be ordered directly using the method and apparatus set forth and described in United States Patent Application Serial Number 09/688,644

[Docket No. PHA 701071] filed October 16, 2000 [Filing Date], entitled "SYSTEM AND

METHOD FOR ORDERING ONLINE UTILIZING A DIGITAL TELEVISION RECEIVER."
